LIST OF CONTENTS

VOLUME 21 (1992)

Number 1

Christina G. Benishin	1	Actions of ginsenoside Rb_1 on choline uptake in central cholinergic nerve endings
N. Weiner, H.-W. Clement, D. Gemsa and W. Wesemann	7	Circadian and seasonal rhythms of 5-HT receptor subtypes, membrane anisotropy and 5-HT release in hippocampus and cortex of the rat
S. Tanganelli, L. Ferraro, C. Bianchi and L. Beani	15	Changes in gamma-aminobutyric acid release induced by topical administration of drugs affecting its metabolism and receptors: studies in freely moving guinea pigs with epidural cups
Pierre Desjardins, Chantal Savoie, Johanne Doucet and Didier Gauthier	21	Isolation and characterization of hamster brain polyribosome–cytomatrix complexes
Emmeline Edwards, William Kornrich, Phyllis Van Houtten and Fritz A. Henn	29	*In vitro* neurotransmitter release in an animal model of depression
Graeme Eisenhofer, Joseph J. Smolich and Murray D. Esler	37	Increased cardiac production of dihydroxyphenylalanine (DOPA) during sympathetic stimulation in anaesthetized dogs
D. R. Gehlert, S. L. Gackenheimer and D. A. Schober	45	[Leu^{31}-Pro^{34}] neuropeptide Y identifies a subtype of ^{125}I-labeled peptide YY binding sites in the rat brain
N. A. Sharif, J. L. Nunes, V. Kalfayan, D. L. McClelland, R. P. Rosenkranz, R. M. Eglen and R. L. Whiting	69	A pharmacological comparison of [^{3}H]GBR12935 binding to rodent striatal and kidney homogenates: binding to dopamine transporters?
Hiroaki Nishio, Yuri Ikegami, Yoshihiro Nakata and Tomio Segawa	75	Fluorescence digital image analysis of thrombin and ADP induced rise in intracellular Ca^{2+} concentration of single blood platelets
Marie Françoise Diebler	83	Effect of *N*,*N*′-dicyclohexylcarbodiimide on the binding of vesamicol, an inhibitor of acetylcholine transport into synaptic vesicles
Kazuaki Araki, Ryozo Kuwano, Ken Morii, Shigenobu Hayashi, Shinsei Minoshima, Nobuyoshi Shimizu, Takashi Katagiri, Hiroshi Usui, Toshiro Kumanishi and Yasuo Takahashi	91	Structure and expression of human and rat D2 dopamine receptor genes
Takeshi Kato, Yo Otsu, Yoshimi Furune and Toshifumi Yamamoto	99	Different effects of L-, N- and T-type calcium channel blockers on striatal dopamine release measured by microdialysis in freely moving rats
P.-L. Lleu and R. J. Huxtable	109	Phospholipid methylation and taurine content of synaptosomes from cerebral cortex of developing rat
R. Mercado and J.Hernández-R.	119	Regulatory role of a neurotransmitter (5-HT) on glial Na^+/K^+-ATPase in the rat brain
M. Pákáski and P. Kása	129	Glial cells in coculture can increase the acetylcholinesterase activity in human brain endothelial cells

Kiyokazu Ogita, Atsuko Ohkawara, Takeo Suzuki, Takao Ohgaki, Shuji Uchida, Haruo Meguri and Yukio Yoneda — 135 Effects of ifenprodil on the *N*-methyl-D-aspartate receptor ionophore complex in rat brain

149 Book Review

151 News Items

Number 2

T. Kato, K. Hanaoka, O. Ochiai, T. Chikuma, K. Takeda, R. Yajima and M. Kumegawa — 153 Secretion of peptidylglycine α-amidating monooxygenase (PAM) from rat salivary glands

P. L. Chazot and P. G. Strange — 159 Molecular characterization of D_2 dopamine-like receptors from brain and from the pituitary gland

J. E. Royland, R. C. Wiggins and G. W. Konat — 171 Myelin isolation: comparison of sedimentation and flotation techniques

Michael R. Brown, Tim J. Keith and Harvey R. Knull — 177 Nonenzymatic incorporation of glucose and galactose into brain cytoskeletal proteins *in vitro*

Naoyuki Misaki, Hiroshi Higuchi, Kanato Yamagata and Naomasa Miki — 185 Identification of glucocorticoid responsive elements (GREs) at far upstream of rat NPY gene

Marc M. Meyer and Paul F. Fitzpatrick — 191 The amino acid substrate of bovine tyrosine hydroxylase

P. T.-H. Wong, P. L. McGeer and E. G. McGeer — 197 Decreased prostaglandin synthesis in postmortem cerebral cortex from patients with Alzheimer's disease

G. Vanhoof, J. De Block, I. De Meester, S. Scharpé and W. P. De Potter — 203 Localization and characterization of aminopeptidase P in bovine adrenal medulla

N. Altiok and B. B. Fredholm — 209 Bradykinin inhibition of cyclic AMP accumulation in D384 astrocytoma cells. Evidence against a role of cyclic GMP

N. M. Anthony, E. A. Benner, J. J. Rauh and D. B. Sattelle — 215 [^{35}S]*t*-butylbicyclophosphorothionate binding sites in susceptible and cyclodiene-resistant houseflies

J. Bothmer, M. Markerink and J. Jolles — 223 Brain phosphatidic acid and polyphosphoinositide formation in a broken cell preparation: regional distribution and the effect of age

Michel Vignes, Janique Guiramand, Isabelle Sassetti and Max Recasens — 229 Dithiotreitol specifically inhibits metabotropic responses of glutamate and depolarizing agents in rat brain synaptoneurosomes

E. R. Galarza De Bo, F. M. Atlasovich, M. R. Ermacora, J. H. Torea, J. M. Pasquini, J. A. Santome and E. F. Soto — 237 Rat brain fatty acid-binding protein during development

Masashi Katsura, Toshiaki Iino and Kinya Kuriyama — 243 Changes in content of neuroactive amino acids and acetylcholine in the rat hippocampus following transient forebrain ischemia

Toshifumi Yamamoto, Tohru Yamakuni, Noriko Okabe and Takehiko Amano — 251 Production and secretion of nerve growth factor by clonal striated muscle cell line, G8-1

Hiroshi Ohtsuki, Katsuya Morita, Naoki Minami, Tetsuo Suemitsu, Akira Tsujimoto and Toshihiro Dohi	259	Involvement of Ca^{2+} entry and inositol trisphosphate-induced internal Ca^{2+} mobilization in muscarinic receptor-mediated catecholamine release in dog adrenal chromaffin cells
Joyce Royland, Penprapa Klinkhachorn, Gregory Konat and Richard C. Wiggins	269	How much undernourishment is required to retard brain myelin development
K. P. Gudehithlu, A.-M. Duchemin, C. P. Silvia, N. H. Neff and M. Hadjiconstantinou	275	Expression of cloned aromatic L-amino acid decarboxylase in *Xenopus laevis* oocytes
Susana Rossi, Victor Idoyaga Vargas and Héctor Carminatti	281	Development modulates the serum induced effect on the incorporation of [2-^{3}H]mannose into chick optic lobe protein: the possible role of glia
Silvia M. Kreda, Juana M. Pasquini and Eduardo F. Soto	287	Phospholipid composition of oligodendroglial cells during normal development and in 18 day old hyperthyroid and malnourished rats
Wan-Wan Lin and De-Maw Chuang	293	Potentiation by Ca^{2+} ionophores and inhibition by extracellular KCl of endothelin-induced phosphoinositide turnover in C_6 glioma cells
	303	Book Reviews
	305	News Items

Number 3

Volker Bigl	307	Preface: In memoriam Dietmar Biesold
Uwe-Karsten Hanisch, Thomas Rothe, Knut Krohn and Robert W. Dykes	313	Muscarinic cholinergic receptor binding in rat hindlimb somatosensory cortex following partial deafferentation by sciatic nerve transection
N. N. Osborne and G. Quack	329	Memantine stimulates inositol phosphates production in neurones and nullifies *N*-methyl-D-aspartate-induced destruction of retinal neurones
Akira Mitani, Yutaka Oomura, Hisato Yanase and Kiyoshi Kataoka	337	Acidic fibroblast growth factor delays *in vitro* ischemia-induced intracellular calcium elevation in gerbil hippocampal slices: a sign of neuroprotection
Andrew B. Scholey, Sarah Bullock and Steven P. R. Rose	343	Passive avoidance learning in the young chick results in time- and locus-specific elevations of α-tubulin immunoreactivity
Bernadette Earley, Martin Burke and Brian E. Leonard	351	Behavioural, biochemical and histological effects of trimethyltin (TMT) induced brain damage in the rat
Marina Pitto, Antonella Giglioni and Guido Tettamanti	367	Dual subcellular localization of sialidase in cultured granule cells differentiated in culture
Keith J. Brooks and Herman S. Bachelard	375	The regulation of intracellular pH studied by ^{31}P- and ^{1}H-NMR spectroscopy in superfused guinea-pig cerebral cortex slices
Thomas Arendt, Martina K. Brückner, Matthias Lange and Volker Bigl	381	Changes in acetylcholinesterase and butyrylcholinesterase in Alzheimer's disease resemble embryonic development—a study of molecular forms
Kazuo Sasaki, Yutaka Oomura, Kenji Suzuki, Kazumitsu Hanai and Hiroshi Yagi	397	Acidic fibroblast growth factor prevents death of hippocampal CA1 pyramidal cells following ischemia
F. Angenstein, H. Matthies Jr, S. Staeck, K. G. Reymann and S. Staak	403	The maintenance of hippocampal long-term potentiation is paralleled by a dopamine-dependent increase in glycoprotein fucosylation

Henning Otto, Klaus Buchner, Roland Beckmann, Ralf Hilbert and Ferdinand Hucho — 409 GTP-binding proteins in bovine brain nuclear membranes

Janez Sketelj, Neva Črne-Finderle and Miro Brzin — 415 Influence of denervation on the molecular forms of junctional and extra-junctional acetylcholinesterase in fast and slow muscles of the rat

M. Kurosawa, A. Sato and Y. Sato — 423 Cutaneous mechanical sensory stimulation increases extracellular acetylcholine release in cerebral cortex in anesthetized rats

Larry L. Butcher, Justin D. Oh, Nancy J. Woolf, Robert H. Edwards and Ali Roghani — 429 Organization of central cholinergic neurons revealed by combined *in situ* hybridization histochemistry and choline-*O*-acetyltransferase immunocytochemistry

Georgina Guzmán-Godínez and Reinhard Schliebs — 447 Effect of kainic acid administration to prepubescent rats on cholinergic markers in selected brain regions of adult rats

B. Oderfeld-Nowak, A. Bacia, M. Grądkowska, M. Fusco, G. Vantini, A. Leon and L. Aloe — 455 *In vivo* activated brain astrocytes may produce and secrete nerve growth factor-like molecules

463 Book Review

465 Erratum

467 News Items

Number 4

Roger J. Colbran — 469 Invited Review: Regulation and role of brain calcium/calmodulin-dependent protein kinase II

Chikako Tanaka and Naoaki Saito — 499 Commentary: Localization of subspecies of protein kinase C in the mammalian central nervous system

A. Takada, M. Grdiša and M. Diksic — 513 Blood-brain barrier transfer of L-Trp and α-MTrp in Li-treated rats

Jianhua Zhu and Terry D. Hexum — 521 Characterization of cocaine-sensitive dopamine uptake in PC12 cells

D. N. Floyd, F. Ashall and M. B. A. Djamgoz — 527 Protease activities in carp retina

Cécile Charrière-Bertrand and Jacques Nunez — 535 Regulation of tubulin, Tau and microtubule associated protein 2 expression during mouse brain development

Dusica Maysinger, Pedro Piccardo, Michel Goiny and A. Claudio Cuello — 543 Grafting of genetically modified cells: effects of acetylcholine release *in vivo*

Shuichi Tsuji, Tatsuro Yamashita, Yuzuru Matsuda and Yoshitaka Nagai — 549 A novel glycosignaling system: GQ1b-dependent neuritogenesis of human neuroblastoma cell line, GOTO, is closely associated with GQ1b-dependent ecto-type protein phosphorylation

M. Ebadi, R. F. Pfeiffer and A. Huff — 555 Differential stimulation of hepatic and brain metallothioneins by ethanol

M. Alberghina and R. M. Gould — 563 Characterization of phospholipase A_2 and acyltransferase activities in squid (*Loligo Pealei*) axoplasm: comparison with enzyme activities in other neural tissues, axolemma and axoplasmic subfractions

Wan-Wan Lin and De-Maw Chuang	573	Regulation of bradykinin-induced phosphoinositide turnover in cultured cerebellar astrocytes: possible role of protein kinase C
D. R. Gehlert and D. D. Schoepp	581	Striatal quinolinic acid lesions increase [^{3}H]WIN 35,428 binding to the dopamine transporter
Marie-Françoise Vesin	585	Differential production of prostaglandins D_2 and E_2 and of an unusual prostanoid by chick spinal cord and meninges *in vitro*
Giselle B. Valente, Angela G. de Mattos, Maribel A. Rubin, Murilo M. Paz, Carla I. Tasca and Regina Pessoa-Pureur	595	Malnutrition increases insoluble-to-soluble tubulin ratio and *in vitro* incorporation of ^{32}ATP in rat cerebral cortex
	605	News Items

VOL. 21 SUPPLEMENT

Abstracts of the Ninth Meeting of the European Society for Neurochemistry was produced as a supplement to the journal during 1992. It was supplied to all subscribers in August 1992.
